

4/13/2016

- Janet Yellen
- Market volume down, but pricing is up!
  - (impossible!)
- Short the market
  - Put Options
  - Stocks not so good (they're expensive)
  - Go through Matt's trading training to learn more here
- Shiller P.E. Ratio
  - 16:1 "normal" (16 years to make back earnings of company)
  - Currently at 27:1
- Stock Market Pulling Back of 70%
  - We need ~90% pull back just to normalize the debt we have out there
- Home Ownership rate
  - Prices are going to take a WAY deeper cut than 2007-2008!
  - Currently as low as in the 80's
    - (50 year low)
  - But prices are at an all time high!

- How? Big hedge funds buying and artificially inflating homes!
- National Debt
  - \$210 Trillion – each person owes \$658,307!
- Federal Reserve Owners are owed all the debt!
  - Vatican Bank
  - Queen of England
- Study These Countries
  - Brazil
  - Venezuela
  - Argentina
  - Zimbabwe
  - <1, 1 millionth than the US debt
- Tip: Use of a thing is the same as ownership
